FIRE & EMERGENCY SERVICES

2020 by the Numbers

Our Fire Experience:

Influencing Factors
Influencing factors can create variances in both our actual fire experience and data comparisons from year-to-year.

Fire Prevention & Education Activities
such as enforcement of the fire code, presence of smoke alarms, and efforts to educate the public can create greater awareness of fire risk in the community

Geography & Weather
station locations, topography, road congestion and condition, and severe weather (including the impact of climate change) affects response

Nature & Extent of Fire Risk
Type of building or occupancy and type of emergency affect emergency operations

Response Agreements
Mutual aid and automatic aid agreements

Service Levels
are set by local municipal council based on local needs and circumstances

Staffing Model
The Gravenhurst Fire Department is a "composite" fire service comprised mostly of volunteer firefighters – this results in slower response times as firefighters must first "muster" at the station.

Top Ten Data Points:

✓ **Calls For Service**	**275**
